Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This is in response to the Applicants' amendment filed on March 5, 2008. Claims 1 and 5 have been amended, claims 2-4 have been canceled, and claim 6 has been added. Claims 1, 5, and 6 have been examined.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 5, and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hamada et al., U.S. Pat. No. 6,356,200 (hereinafter, Hamada).

As to 1, 5, and 6, Hamada discloses an occupant determining device (abstract), comprising:

a load detecting sensor provided on a seat body (abstract and Fig. 1, 47-50); and a controller calculating a detected load value based on an output value of the load detecting sensor and performing occupant determination based on the detected load value (abstract and Fig. 1, 47-50 and col. 5, col. 20, lines 1-14, and cols. 23-24), wherein the controller sets a first determination threshold and a second determination threshold larger than the first determination threshold (abstract and Fig. 1, 47-50 and col. 5, col. 20, lines 1-14, and cols. 23-24), wherein if the detected load value falls between the first and second determination thresholds and continues for a first time duration, the controller switches an occupant

determination state to an adult determination state (abstract and Fig. 1, 47-50 and col. 5, col. 20, lines 1-14, and cols. 23-24), and wherein if the detected load value exceeds the second determination threshold and continues for a second time duration which is shorter than the first time duration, the controller switches the occupant determination state to the adult determination state (abstract and Fig. 1, 47-50 and col. 5, col. 20, lines 1-14, and cols. 23-24).

Examiner's Note: The Examiner has pointed out particular references contained in the prior art of record within the body of this action for the convenience of the Applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply. Applicant, in preparing the response, should consider fully the entire reference as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the Examiner.

Response to Arguments

3. Applicant's arguments with respect to claims 1, 5, and 6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
